Feeding stations are set up along the whole route and after the finish line for all the participants.

A real time limit to cross the finish line (from the crossing of the starting line) is defined by the Organiser according to the difficulties of the course, technical constraints, etc. and is fixed at eleven (11) hours. Any participant exceeding this real limit time, even if crossing the finish line, will be downgraded.

Once the end of race vehicle has passed by, participants must comply with the traffic regulations of the "Code de la Route" (French highway code).

1.8. TIMING

All participants will be issued with an electronic chip when they pick up their race numbers (the chip is attached to the back of the frame numbers), which will be automatically initialised on the start line and will track the conformity of the race at each antenna along the Event's route and at the finish line. In order to allow the timing chip to function properly it must not be folded or bent. The frame plate must be attached to the front of the bike. participants who do not follow the route defined by the Organiser, who use human and/or material assistance, or who cross the finish line without their "chipped" frame plate will not be recorded as having finished.

The electronic detection system has been chosen according to strict reliability requirements. Despite tests conducted by the manufacturers, a very low percentage of cases of non-detection remains. Due to the lack of information resulting from this non-detection, the Organiser may be unable to show the official or real time for the participant concerned in the ranking. The Organiser cannot be held responsible for this.

1.9. GENERAL SERVICES

Road safety is managed by the Gendarmerie Nationale and medical services are provided the Organiser's medical service provider and, if applicable, by an approved civil security association. 1.10. ACCESS TO THE SITE AND SECURITY

It is strictly forbidden to bring any objects to the Event site that may be dangerous or illegal, in particular drugs, firearms, blunt weapons and explosives.

To access the site and take part in the Event, the participant recognises and expressly agrees that the Organiser may call upon security personnel who will be authorised to check both people as well as inspecting their personal belongings. Everyone who wishes to access the site must comply with this check. If they refuse to do so they will not be authorised to access the site.

The Organiser and the security staff may refuse access to the Event or prevent participants from taking part if their behaviour is likely to disturb the smooth running of the Event notably under the following, non-exhaustive circumstances: the use of any object which may hinder the race, the circulation and/or safety of other participants; the use of any distinctive promotion, in any form, of an opinion [political, philosophical or religious] likely to damage the image of the Event; abnormal, inappropriate or immoral behaviour of the participant, in particular if they appear to be under the influence of drugs or alcohol.

The Organiser will put a number of measures in place to ensure the route is safe: signage, motorcyclists with flags indicating dangerous areas, signs indicating sections requiring particular attention.

The participants must respect the safety instructions given by the Organiser's personnel along the whole route.

The safety measures will end at the finish line.

1.11. WITHDRAWALS AND TIME LIMITS

If a participant wishes to withdraw for any reason other than injury, they should, if at all possible, do so at one of the recovery points set up by the Organiser. The participant should find the person in charge of the area, who will permanently invalidate his race number. Return transportation for participants and bikes will be available at each of these points.

In order to ensure the participants' safety and to allow the re-opening of roads to cars to be scheduled, it is essential that participants do not exceed the end Event time limits.

Three measures will be put in place:

- **Stationary measures: recovery points**

The locations and times for the recovery points will be communicated to participants before the Event (newsletters, website, social networks) and when race numbers are collected.

Time limits at the recovery points will be identified, communicated to participants (via the Event's website, social networks and at the Village where race numbers will be) and put in place.

These time limits will correspond to the times after which it will no longer be possible to leave the indicated place (other than by following the alternative route under the terms set out below).

If participants do not leave the recovery points before the specified time, they will be eliminated from the race and will no longer feature in the Event's rankings. Return transportation for participants and bikes will be available at each of these points.

- **Stationary measures: diversion points**

When possible, alternative routes will be offered to participants who have been eliminated but who do not want to use the recovery system organised. These itineraries, which are less challenging than the route of the Event, will not be closed to traffic nor secured by the Organiser. Participants take these routes at their own risk.

Any participant deciding to take an alternative route will be detected by the timing system and will not feature in the final Event rankings.

Alternative routes and the times when they will be in operation will be communicated to participants before the Event (newsletters, website, social networks) and when race numbers are collected.

- **Mobile measures: end of race**

The end of race operation, which will consist of at least one motorcycle, one car and one bus, will only take charge of participants who have fallen, experienced mechanical or physical failure and who are unable to reach the recovery points under their own steam.

Participants who use this mobile operation will be eliminated from the race. The medical service, consisting of doctors and first aiders, may decide to eliminate a participant for medical reasons.

1.17. RESPECTING STARTING AREAS

Starting Areas have been set up to regulate departures during the course. By placing all the participants according to their level of fitness, the Organiser will limit the number of riders who overtake others and considerably reduce the risk of bottlenecks on the approach to the first difficulties on the route.

According to your experience during the previous annuals of L'Étape du Tour de France and your sporting level, you will be allocated a starting area number by June 2022 : the lower your starting area number will be, the earlier you will start.

Here are the criteria used to allocate the various starting areas, ranked in descending order of importance:

1. The ranking according to the real time achieved on the 2019, 2018, 2017 annuals of the Etape du Tour;
2. If you hold FFC licence for the 2022 sporting season, your ranking at the FFC Classement cyclosporport will also be considered when determining your initial allocation.
3. Your sporting objective on the 2022 Etape du Tour de France edition.
4. If you've taken part in a recognised cyclosporptive event, we will also take this information and your result into account for your final allocation.

The Organiser has authorised all staff involved in the organisation (volunteers, ASO employees, etc.) present at the start site to respect the starting areas attributed to each participant.
